

COVID-19 Visitor Policy Effective December 30, 2021

Thank you for your continued patience and understanding of our requirements to keep our patients and staff safe from exposure to COVID-19. Your willingness to graciously comply with our ongoing screening and mask policies is greatly appreciated.

At this time, our physicians feel the risk of infection of any kind, particularly COVID-19, remains a concern for our infusion patients. Therefore, we will continue a **NO VISITOR POLICY in the infusion areas of our offices.**

However, **non-infusion patients** may each have **ONE VACCINATED VISITOR over age 16 who is able to show proof of a full COVID-19 VACCINATION.** Proof includes a vaccination card AND a matching driver's license or valid photo ID. **NO UNVACCINATED VISITORS** are allowed. If a patient needs any physical or emotional assistance during their visit, HOA staff will provide that.

NOTE: A person is not fully vaccinated until two weeks after the 2nd dose of a two-dose vaccine or two weeks after a one-dose vaccine. Visitors also must be free from any contagious illness or symptoms and wear well-fitting masks. Please be prepared for this policy prior to the visit.

For your convenience, we also will continue to allow family and caregivers to use virtual communication tools during a patient's visit.

Again, thank you for your patience and understanding that the immunocompromised nature of our patients makes them among the most vulnerable in our community.

It remains our honor and privilege to care for you and your loved ones.
