

Hematology-Oncology Associates of CNY

When you need us. Where you need us.

HAPPY CANCER SURVIVORS MONTH!

Thank you for reading our first Electronic Newsletter. Its purpose is to provide you updates and information to help you and your loved ones best utilize our services. In this issue, learn [about a fun night out for cancer survivors](#), a [contest to encourage use of our patient portal system](#), details about cancer detection services like [genetics testing](#) and [lung cancer screenings](#), both included in a [special screening program for the Syracuse Fire Department](#). Also, THANK YOU for continuing to be patient with us as we keep our patients and staff safe from COVID-19, especially your support of our new arrival and check-in process, clarified below.

WIN A 40" SMART TV

June 15-29, 2021

Register for a New Patient
Portal Account

(Click here to access the form.)

OR

Send us a Message through
the Portal from June 15-29

and be entered to win a New,
VIZIO 40" Smart TV!

Questions?
Call 315-472-7504

The winner will be notified through the Patient Portal on
Wednesday, June 30 - so you can enjoy your TV over the holiday!

New Two Step Check-in Process

STEP 1: Please say hello to our Greeter as you start your day with us. They will advise our front desk team of your arrival, allowing you to be more comfortable and take a seat until we are able to assist with your check-in.

OR

For your convenience, we also have iPad Stands you can use to advise of your arrival by entering your first & last name and date of birth.

STEP 2: After completing step 1, take a seat and wait for the front desk team to notify you when they are ready for check in. It's important to meet with our front desk team so we can keep your chart up to date. Once that is complete, the front desk lets your clinical team know you are ready for your appointment.

NOTE: If you have waited for more than 15 minutes, please make our front desk aware.

Congratulations to
Wendy Butkins
from Social Work:
Winner of the 2020
HOA Spirit Award!

Staying Ahead of the Curve for our Patients

Precision Medicine and Targeted Therapy are medical "buzz words" that hold special meaning among cancer care providers,

particularly with rapid advances in oncology over the last 20 years. Those improvements make it possible for us to offer and plan specific care for our patients, based on each person's genes (or the genes in their cancer cells). In addition to investing in cutting-edge technologies like [TrueBeam](#) and [CyberKnife](#), our commitment includes participating in and offering numerous research trials to prove advances in cancer care. The most current information about clinical trials can be found at clinicaltrials.gov. You can also contact our Research Department during regular business hours by calling (315) 472-7504, extension 1350 or through email at clinicaltrials@hoacny.com.
