

# Hematology-Oncology Associates of CNY

Personalized cancer care – when you need us, where you need us.

## September is Prostate Cancer Awareness Month!

[Click here](#) to listen to Dr. Shing Chin explain the importance of the month and how prostate cancer is very curable, even at later stages of diagnosis. He also explains the benefits and effectiveness of our exclusive, non-surgical, CyberKnife Radiation System.

### HOA BUZZ WORDS

**BIOMARKERS** - A biomarker (short for biological marker) is an objective measure that captures what is happening in a cell or an organism at a given moment. Biomarkers, like cancer genetics testing, can serve as early warning systems for your health.

### What About Cancer Research at HOA?

In the past, clinical trials were sometimes seen only as a "last resort" for people who had no other options or treatment choices. However, many people with early stage cancers choose to participate in treatment and/or symptom-management clinical trials.

In fact, today's clinical trials become tomorrow's standard of care!

Please always feel free to ask your doctor and other members of your healthcare team if there is a clinical trial for you. If you have any questions about participating in clinical trials, or if you would like more information on trials we have available, please contact the Research Department at 315-472-7504 (x1350)

Patients seeking a cancer care specialist often look at Google Reviews for additional guidance. If you would recommend our practice to a potential patient, could you please do us a favor and write us a Google review? Just [click here](#). Thank you!

## September Also is Ovarian Cancer Awareness Month

### Signs and Symptoms of Ovarian Cancer

Ovarian cancer may cause several signs and symptoms. Women are more likely to have symptoms if the disease has spread, but even early-stage ovarian cancer can cause them. The most common symptoms include:

- Bloating
- Pelvic or abdominal (belly) pain
- Trouble eating or feeling full quickly
- Urinary symptoms such as urgency (always feeling like you have to go) or frequency (having to go often)
