5008 Brittonfield Parkway
East Syracuse, NY 13057

Click Here to Reserve Your Spot Today!

You can also register by calling 315-472-7504 extension 1589 or by emailing rsvp@hoacny.com

Ajeet Gajra, MD

Shing Chin, MD

Steven Duffy, MD

It is important for prostate cancer patients and their loved ones to learn about all of their treatment options directly from a medical oncologist who can manage all of the patient's cancer care.

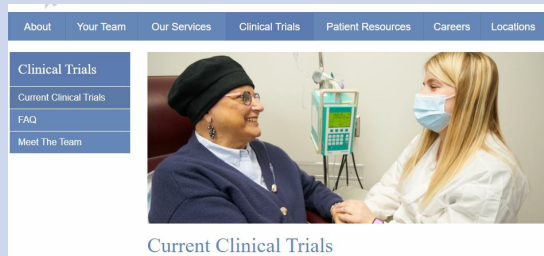

Please join us to hear our prostate cancer experts share this critical information, followed by a question-and-answer session. A pizza dinner will be served.

Looking for a Clinical Trial? Looking to Learn About Research at HOA?

[Click here](#) to check out the new Clinical Trials section on the HOA website where you will find:

- a list of all our clinical trials accepting new patients
- answers to your questions
- our clinical research team

Current Clinical Trials

Non-Oncology IV Infusion Available at all HOA Clinical Locations

In addition to treating cancer, our Infusion Services Program combines decades of expertise and nationally accredited safety standards to benefit patients with a wide variety of medical conditions. Those diagnoses include, but are not limited to, rheumatoid arthritis, multiple sclerosis, lupus, ulcerative colitis and anemia.

With 66 infusion chairs across three locations - Auburn, East Syracuse and Onondaga Hill - appointments are easy to schedule around your needs, including switching locations as necessary. We also have a state-of-the-art pharmacy and lab services on site, plus free parking. [Click here](#) to learn more.

with Dr. Ajeet Gajra

[Click here](#) to listen to Dr. Gajra on 93Q- FM discuss immunotherapy.

with Dr. Steven Duffy

[Click here](#) to listen to Dr. Duffy on WSYR-TV 9's *Bridge Street* discuss the value of Colorectal Cancer screenings and the progress in treatments for this cancer.

HOA BUZZ WORDS

What is ROI?

ROI is an abbreviation for release of information. Patients are asked to update this document yearly. It also needs to be updated when a patient wants to add or subtract someone from their list of individuals who can have access to their health record.

If you need to complete this form you can [click here](#) to print it.

APRIL IS TESTICULAR CANCER AWARENESS MONTH

Testicular cancer is the most common cancer in men ages 15-35. With treatment, it is also one of the most curable cancers in up to 95% of patients! [Click here](#) to learn more.
