**Work Has Begun on our  
New Comprehensive  
Cancer Center  
in Camillus**

We are happy to announce the beginning of building our future 21,000 square foot comprehensive cancer center in Camillus, NY. The new building will be located at 5490 Cobble Way, and is tentatively planned to open in December 2024.

"Providing our patients with the best possible care includes a modern, spacious location where they can conveniently and cost-effectively receive all their cancer care, rather than traveling to different locations," states HOA CEO Maryann Roefaro. "We have outgrown our current Onondaga Hill location, which this new center will replace. Plus, we are excited to move our Wellness Center into this new location which offers more space and greater accessibility for our patients and members of the community." **Breast Care Partners Receives  
National Re-Accreditation**

As a proud member of Breast Care Partners, we are excited to report The National Accreditation Program for Breast Centers (NAPBC,) a quality program of the American College of Surgeons, has granted another Three-Year Accreditation to Breast Care Partners. To achieve voluntary NAPBC accreditation, a breast center demonstrates compliance with 28 NAPBC standards that look at a center's leadership, clinical services, research, community outreach, professional education, and quality improvement.

A diverse group of CNY breast health specialists, Breast Care Partners joined together to ensure each patient receives the best possible care available. As a NAPBC-accredited center, Breast Care Partners is committed to maintaining levels of excellence in the delivery of comprehensive, patient-centered, multidisciplinary care resulting in high-quality care for patients with breast disease. Patients receiving care at a NAPBC-accredited center have access to information on clinical trials and new treatments, genetic counseling, and patient centered services, including psycho-social support. It also includes a survivorship care plan to improve each cancer survivor's quality of life. To learn more, visit [breastcarepartners.com](http://breastcarepartners.com)

**NOTICE**

**If you are covered by Medicaid:**

The Department of Health is now REQUIRING you to recertify for your Medicaid insurance coverage. Recertifications are beginning now. If you do not recertify in a timely manner your coverage will terminate. This applies to all Medicaid, Essential and Child Health Plus Plans.

**You need to take action:**

Please contact your local Medicaid County Office or The New York Exchange Navigators at 855-355-5777, depending on how you enrolled.

You can also ask to speak with one of our Patient Advocates.

Thank you!

**Are you aware that we operate a local chapter of the Community Oncology Alliance National Patient Advocacy Network (CPAN)?**

If you are interested in learning about our activities and issues, please contact our coordinator, Chelsea Klock, RN, OCN by phone or email her at [cklock@hoacny.com](mailto:cklock@hoacny.com). To learn more [click here!](#)
