Bring your loved ones to hear directly from cancer genetics experts!

**ATTEND OUR SEMINAR TO GET ANSWERS TO
THESE QUESTIONS AND MORE!**

We are proud to be the presenting sponsor of [Cancer Connects'](#) E-Race Cancer event on Saturday, April 5. Grab your family and friends to participate in honor or memory of a cancer survivor or a loved one! Download the [pledge form here](#) to start collecting pledges in support of their Angel Fund-allowing Cancer Connects to provide free services and support to CNY & NNY residents on their cancer journey. There will be a prize for the top fundraising team and to an individual participating in honor or memory of someone!

Advanced Cancer Support Group Facilitators

Stacey Menzari,
Social Worker

Pam Coffey,
Social Worker

Chace Perkins,
Physician Assistant

Meetings at 5008 Brittonfield Parkway, East Syracuse
3pm - 4:30pm
2nd and 4th Wednesday of Each Month

Advanced Cancer Support Group Available to All!

Our new Advanced Cancer Support Group is for anyone with an advanced stage and/or metastatic cancer. The group meets twice a month and is an open forum support group.

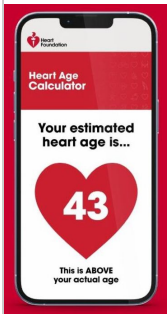

People can come to as many or as few meetings as they want. It is a place

where patients can come to talk about the challenges and difficulties they face, without being judged. It is a safe, confidential space.

Some things that are likely to come up during our meetings are:

- feelings of loneliness
- coping with your diagnosis
- loss of hope
- feelings of anxiety/depression
- worries about your family

The group is open to anyone with advanced cancer at any stage of treatment, even if you are not a patient of HOA. Registration to attend is requested by calling Stacey Menzari at 315-472-7504 ext 1349 or by emailing her at smenzari@hoacny.com.

Heart Age Calculator

Could you be at risk of heart disease? Get your estimated heart age now.

- The Heart Age Calculator estimates your heart age based on your inputs and compares to your actual age.
- This calculator is intended for people aged 35–75 who do not have heart disease. If you have heart disease or are caring for someone who does, you might like to join our free [MyHeart MyLife digital support program](#) for information and support tailored to your needs.
- Your risk of a heart attack or stroke may be higher if your heart age is greater than your actual age.
