POLICY ACKNOWLEDGEMENT

To maintain ongoing authorization, **updated clinical documentation is required every 6-months** and a **new drug order form is required annually**. Updated documentation will be required for all dose and/or frequency changes.

HOACNY will obtain authorization for drug administration prior to scheduled infusion. If HOACNY is unable to obtain insurance authorization due to this medication not being in alignment with the insurance plan's medical policy, the referring office will be notified and HOACNY will not be able to administer the medication. HOACNY may use a biosimilar or generic medication based on insurance company's preferred biosimilar medications or practice preferred medications. The biosimilar medication used may change during the course of treatment depending on those preferences. HOACNY does not participate in free drug programs.

HOACNY is responsible to provide nursing care, safe drug handling & administration, post-infusion observation and management of hypersensitivity reactions per the HOACNY Infusion Policy & Procedure Guidelines. The prescribing physician is responsible for educating the patient of potential risks and complications associated with the drug administration as well as drug specific monitoring parameters before proceeding with Non-Oncology Medication Infusion Services referral. The prescribing provider is responsible for identifying and managing any side effects of the prescribed medication and for determining whether it is appropriate to proceed with treatment. Please call our office to coordinate with our Infusion Services Nurse Navigator, as appropriate. Any changes in condition or delayed adverse events that occur after leaving the infusion center will be reported to the prescribing physician for evaluation & management.
